

# Inner Wheel Day 10th January

To my dearest Inner Wheel Sisters worldwide,

I extend my warmest greetings to you all on this memorable Inner Wheel day. A day which holds a great meaning to all of us -- to all those who care for being committed members of our world famous organization.

On this day together we remember the founder of IW, the great lady Margaret Oliver Golding who gave us a meaningful platform to serve the community and promote friendship among us globally.

This year on 10th January 2018 let us all celebrate it in such a way to leave a Lasting Legacy in service and friendship. May you embrace the spirit of giving with kindness, compassion, inspiration, and encouragement.

Let's all together today help environment grow better by planting saplings.

Let each one bring in one new member today for the better growth of our organization.

Let each one of us welcome this day in this new year full of achievements that have never been.

The new year is not about changing the dates but directions, it's not about changing the calendar but commitment, it's not about changing the action but attitude.

New is the year, new are the hopes, new is the resolution and new are the spirits.

And new are my wishes for all of you, may your smile be the reason for someone's happiness. Have a fruitful and promising Inner Wheel day and new year.

**Dr Kapila Gupta**
